

GREEN CAREERS BANNER

PRINTING GUIDELINES

Guidelines are provided for:

1. Commercial printing of two large-sized banners (3m x 2m and 1.5m x 1m)
2. Commercial printing of smaller, A2 or A3 sized banners
3. In-house printing of A3 sized banners

1. Commercial printing of the large-sized banners

Option A:

Polyester twill fabric, a lightweight material offers a high-quality printed image, and is very easy to transport and set up for display. In the first lighter option of 7 kgs, the fabric banner is supported by a slimline frame of four aluminium poles joined using plastic clips. The second heavier option of 16 kgs is an aluminium fold-out concertina frame to which the banner is secured using velcro strips. This option comes with a carrying bag.

Option B:

PVC, a sturdy vinyl material also offers a high-quality printed image. The banner can be mounted using eyelets and rope and can be easily folded for transport.

You might find other more cost-effective options. The following are some options for printers in different regional centres to start with.

2. Commercial printing of smaller sized banners

Commercial printing is also an option for an A2 or A3 sized banner, although much of the detail of the landscape is lost in these sizes. We recommend:

- Poster board between 160gsm and 300gsm for durability
- Matt lamination for added durability and a high-quality finish
- Forest Stewardship Council (FSC) certified paper and cardboard, to promote sustainability

3. In-house printing of smaller sized banners

A smaller, A3 sized banner can also be printed in-house at a lower cost. You might consider using 160gsm poster board that can be laminated for durability.
